# CONNECT EVERYTHING. ANYWHERE. EVERYTIME.

STRATOS I/O

NOW WITH I/O CONTROL & MONITORING

ENCOM **STRATOS I/O** provides a powerful yet simple interface for rapid wireless network deployment, effective management, and crystal clear system visualization. Not only can you control and manage your ENCOM broadband network with **STRATOS I/O**, but *now you can also Monitor and Control external devices through any ENCOM contact closure product, even on non-ENCOM networks!*

EASILY ACCESS ENCOM I/O DEVICES FROM *ANY* BROADBAND OR FIBER NETWORK.

You can access I/O devices from any network

Works with any broadband network (ENCOM or other)

One I/O gateway provides access to hundreds of sites (instead of one expensive LTE device per site)
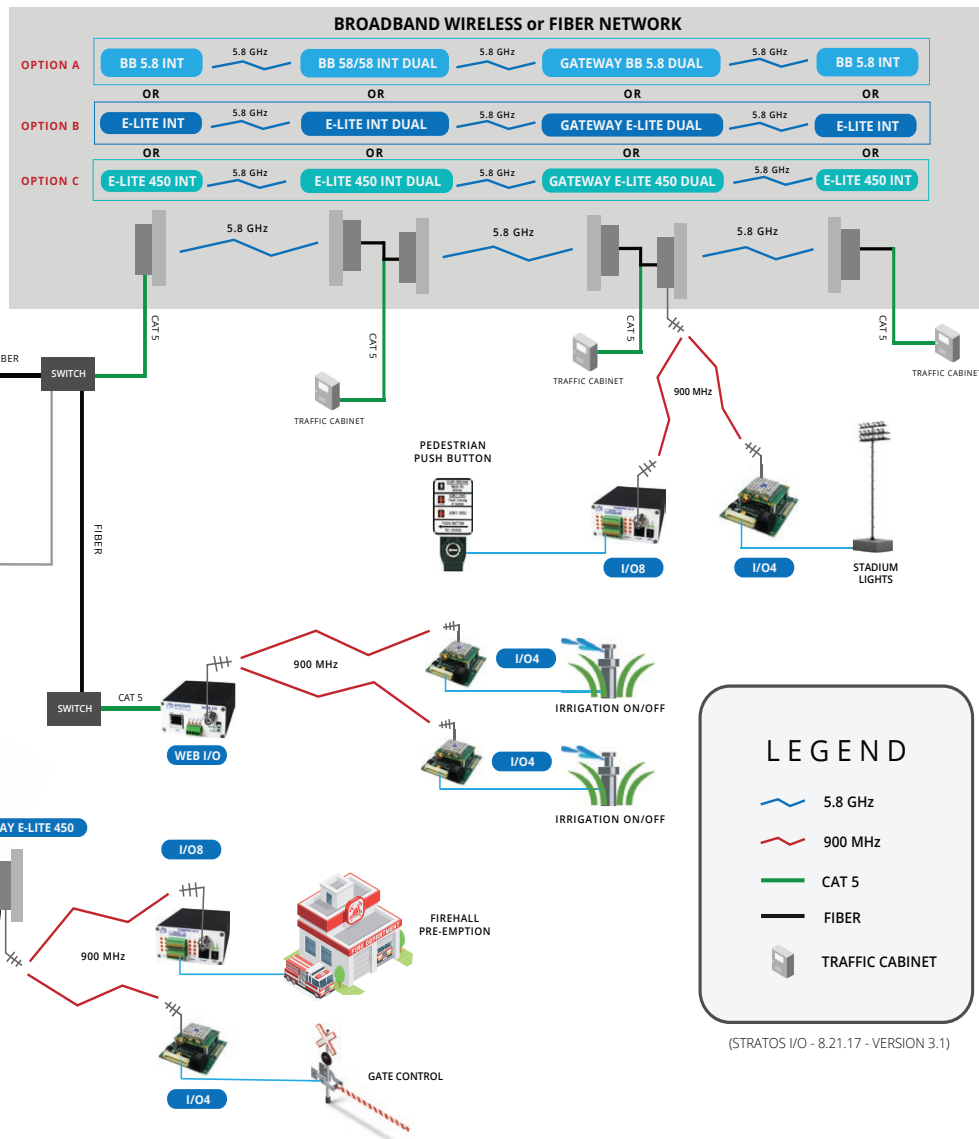

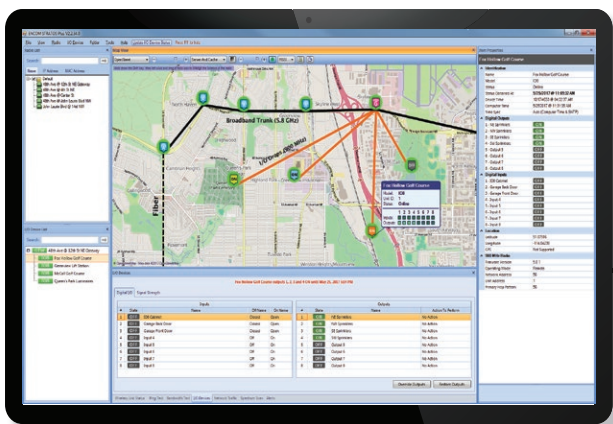

Monitor and control up to 8 digital inputs and outputs per site

Alarms can be generated for any input change (door open sensor, temperature changes, etc.)

CENTRAL MANAGEMENT
